Subject: Revised Fiscal Year 2018 Revenue Projection

Recommended General Fund Revenue for FY 2018 Budget.

Below is the <u>Revised</u> Fiscal Year 2018 Schedule- General Fund Revenue Projection for FY 2018. The Minerals Department has submitted yesterday a revised projection on the coal portion of the FY 18 revenues on new information they received yesterday regarding post Navajo Generating Station lease approval earlier this month. The factors related to the coal were updated and the changes were material. Total gross revenue projection is now \$200.0 million. After the set asides are taken out, \$51.2 million recurring, the Net Total General Fund Revenues of \$148.8 million is available for recurring budgeting.

As stated in the original projection, because of the volatile nature of oil and gas prices, this revenue projection is subject to change. Any other updated impact from the Navajo Generating Station and Peabody will change this projection as well. Any other potential material impact on our projection that arises will then be re-evaluated as well. If there are any questions, you can call me at tribal extension 6308.

THE NAVAJO NATION FISCAL YEAR 2018 BUDGET INSTRUCTIONS MANUAL

I. PURPOSE AND AUTHORIZATION

A. Purpose

The Budget Instructions Manual (BIM) provides instructions and information for the development of the Navajo Nation comprehensive budget.

Copies of the BIM are available, for a fee, from the Records Management Department, (505) 371-5113 or on the Navajo Nation Office of Management and Budget (OMB) website at: www.omb.navajo-nsn.gov. For inquiries regarding the budget development process, OMB can be reached at (928) 871-6046/6470 and via e-mail at: customer_service@omb.navajo-nsn.gov.

B. Authority

The Appropriations Act (12 NNC § 800 et seq.) is the primary Navajo Nation legislation which authorizes the process of developing the annual Navajo Nation comprehensive budget.

The Appropriations Act (12 NNC § 800) states that the Navajo Nation government has a fiduciary responsibility to:

- Account for public funds.
- Manage finances wisely.
- Plan for the adequate funding of services desired by the Navajo people, including the provision and maintenance of public facilities.
- Establish policies and procedures for the preparation, adoption, and implementation of the annual Navajo Nation Comprehensive Budget.

Other Navajo Nation legislation and policies, some of which are referenced in this BIM, provide further information regarding fiscal and budgetary matters. These include: OMB's Enabling Legislation, Branch Chief authorities, Budget and Finance Committee (BFC) and other legislative oversight committee authorities, program Plans of Operation, and program Fund Management Plans and Expenditure Plans. Navajo Nation law shall control if there are any inconsistencies between the BIM and Navajo Nation law.

II. PERFORMANCE BUDGETING AND PERFORMANCE ASSESSMENTS

A. Performance Budgeting

The Navajo Nation government utilizes performance budgeting as a factor in making budget decisions. The Navajo Nation's Appropriations Act mandates a budget development process which includes the use of program performance information.

Performance budgeting is a method that incorporates the use of program performance criteria (goals and actual results) to assist with the allocation of funds during the budget development process. Other factors are considered when making budget decisions, such as:

- Personnel costs
- Budgeted vs. actual expenditures
- Prior year(s) budget revisions
- Carry-over funds availability and usage
- External funds availability and usage

- Supplemental funds availability and usage
- Political priorities

Measurable program performance criteria are required for each program budget using Budget Form 2 information as well as information from the program's respective oversight committee. Performance results are reported on a quarterly basis.

B. Methodology

During budget development, program managers develop five (5) significant program performance criteria/goal statements for relevant aspects of program performance areas. Programs may develop more criteria for their internal use, but five (5) are required for the budget process. The goal statements should address major relevant program performance areas and be measurable on a quarterly basis.

C. Program Performance Assessments

At the end of each quarter, program managers submit the actual quarterly results for the goal statements established and approved for each program budget to OMB. OMB's Management & Policy Section will perform quarterly program assessments and generate reports based on the goals and actual accomplishments reported by program managers on Budget Form 2. Quarterly performance reports will be disseminated to key officials.

A simple rating method is used to determine program performance scores. Program performance scores are based on performance criteria developed by program managers during budget development and actual results reported by program managers on a quarterly basis. OMB program analysts use a comparison of goal statements to actual results and determine scores for each goal statement. Scores range from 0 to 3 using the following scale:

3 Exceeded - Indicates the program exceeded their goal statement.

2 Met - Indicates the program met their goal statement.

1 Not Met - Indicates the program did not meet their goal statement.

0 No Report - Indicates the program did not report actual results to OMB.

An overall performance score is determined by calculating the cumulative average of all quarterly performance goal scores which becomes the program's average performance score. Any program that receives any additional funding during the fiscal year (carry-over, supplemental funding, etc.) must REVISE their current Budget Form 2 to incorporate the new performance criteria associated with the additional funding. Contact OMB's Management & Policy Section for further information and/or instructions, if needed.

III. FINANCIAL MANAGEMENT INFORMATION SYSTEM (FMIS) BUDGETING

A. Financial Management Information System (FMIS) Budgeting

The Navajo Nation's financial system, FMIS, uses financial software and technology structured for the Navajo Nation's organizational and periodic financial reporting requirements. Administration of the FMIS budget data is the responsibility of the Office of the Controller. Generally, the system maintains budget information on various budget ledger types, such as ledgers for budget development, final budget and budget revisions. Budget ledger types are administered by OMB and are used with other FMIS ledgers to provide budget status and other important financial information to verify availability of funds or to generate reports.

Office of the Controller (OOC) is responsible for administration of the FMIS expenditure data. OMB, at the request of the OOC, assigns business unit (BU) numbers for Navajo Nation programs and these numbers are maintained in the FMIS for financial budgeting and accounting purposes. With the exception of job cost business units, OMB will assign the BU. Budget development and administration in the FMIS are maintained within the assigned business unit number. Navajo Nation programs may have multiple business units or numbers depending on funding source(s).

B. Chart of Accounts for Budgeting Purposes and Level of Detail (LOD)

The official Navajo Nation Chart of Accounts uses a 4-digit coding system (object codes) to maintain line-item revenue and expense information in the FMIS. The Chart of Accounts (Appendix A) and Level of Detail for Budgeting Purposes, shows the various object codes to be used in the development of the Navajo Nation budget. Each object code in the chart is assigned a level of detail ranging from 3 to 7. Accounts at LOD 7 are the most detailed and accounts at LOD 3 are less detailed. Those accounts at a lesser level of detail are primarily used for generating budget or financial reports on a sub-totaled basis. Data entered at a higher level of detail (usually 6 or 7, depending on the ledger type) allows for information to be rolled up or down for reporting and inquiry purposes, as well as for budgeting or expenditure reporting and sorting purposes.

Budget data on the budget ledger are entered at a LOD 6, except personnel fringe benefits, which are budgeted at LOD 5 in object code 2900. All procurement and financial accounting of actual expenses are processed at the LOD 7 by OOC. Budget amounts at LOD 6, if sufficient funds are available, will cover any LOD 7 object code expenses within that LOD 6 object code. This allows programs to budget at a greater level of detail and account for expenditures at LOD 7.

IV. BUDGET TIMETABLE AND PROCESS

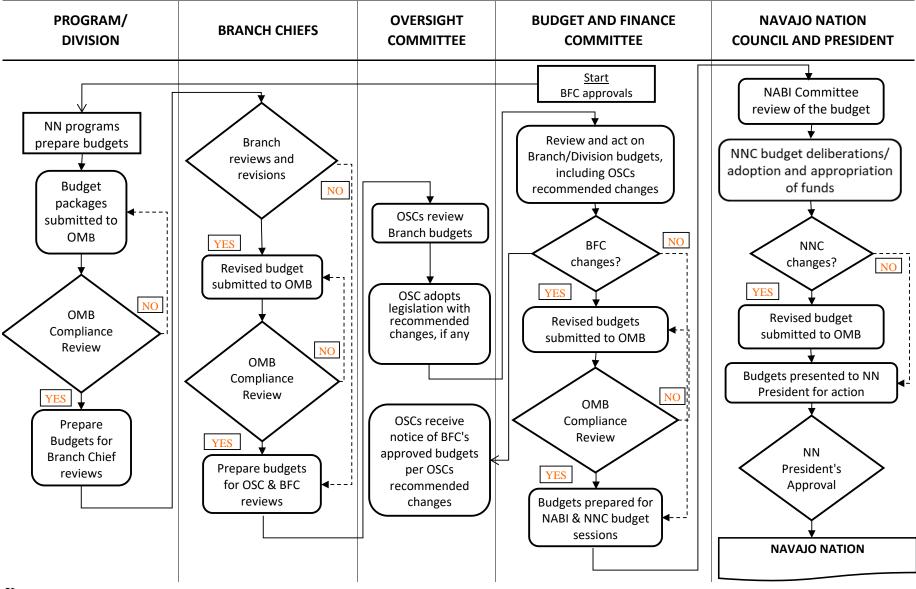

A. Budget Development Process Chart

The chart displayed on the next page shows the annual Navajo Nation budget development process which starts with the BFC approvals of the BIM, revenue projections and Branch Planning allocations. Next, the completed, detailed budgets are prepared and submitted to OMB. The prepared budgets, along with other budget related information, are submitted for review first by the Branch Chiefs and then to the respective oversight committees with final approval by the Navajo Nation Council.

B. Annual Budget Calendar

The Navajo Nation annual budget calendar is designed to ensure timely completion of key budget development activities and to identify the responsible parties involved in the budget development process. It also provides the due dates and flow of budget activities at various levels of the Navajo Nation government.

BFC = Budget & Finance Committee

NN = Navajo Nation

OMB = Navajo Nation Office of Management and Budget

OSC = Oversight Committee

NABI = Nabikiyati Committee NNC = Navajo Nation Council

V. FUND ALLOCATIONS

A. General Fund Planning Allocations

The Navajo Nation general fund branch planning allocations based on projected revenue are approved by the BFC at the beginning of the annual budget preparation process. Upon approval of the branch planning allocations, each Branch Chief establishes the general fund planning amounts for their respective divisions or programs for the preparation of the fiscal year budget.

B. Proprietary, Fiduciary and Special Revenue Fund Budget Allocations

Amounts for proprietary, fiduciary and special revenue fund allocations for budgeting purposes are based on approved legislation establishing these funds. The allocation amounts are provided by OOC. Budgets must be prepared and submitted by recipient programs to OMB based on these pre-determined funding allocations.

C. Indirect Cost (IDC) Recovery and Personnel Savings/Lapse Fund Allocations

These fund sources are either formula-based (IDC) or mandated by Navajo Nation Council legislation (Personnel Savings/Lapse Fund). OMB shall provide the indirect cost (IDC) recovery allocations or the lapse fund amounts, if any, to be used by eligible programs in the preparation of their budgets. IDC funds can only be allocated to and budgeted by those offices and programs eligible to receive these funds.

The amount of IDC allocated to eligible programs will be in addition to their allocated General Funds and other Navajo Nation funds. The cumulative amount of such funds will serve as the program's base budget or budget planning amount in submission of their proposed Navajo Nation fiscal year budget. See Instructions on Submission of Budgets for External Funding (Appendix L) for additional information.

VI. OTHER NN FUNDS, FUND MANAGEMENT PLANS AND EXPENDITURE PLANS

In addition to the NN General Fund, there are numerous other NN funds administered by the Navajo Nation government. These other funds are classified in the NN Appropriations Act and have their own unique requirements.

Fund Management Plans and Expenditure Plans are primarily used to administer Proprietary Fund types and are approved by the BFC pursuant to resolutions BFMY-38-02 and BFN-187-03 which establishes the criteria to be met. Fund Management Plans and Expenditure Plans can also be used to provide guidance to administer other types of NN funds.

VII. PROJECT BUDGETING AND ACCOUNT SET-UP

OMB is responsible to set up business unit accounts for all capital and non-capital projects in the NN's Financial Management Information System (FMIS). Projects can be funded from any source and the instructions and forms contained in this BIM are required to be completed for entry into the FMIS. The account set up, budgeting and project management is the same, only the funding source may differ.

Project funding approval and administration may vary and is based on the legislative requirements of each particular source. Contact the appropriate NN Division/Department (i.e., Division of Community Development/Capital Projects Management Department, Division of Economic Development, Division of Transportation, etc.) to obtain specific requirements and instructions for

funding project from that particular funding source. Or, contact OMB to determine which Division/Department to contact for project funding information and requirements.

Information for project setup on each project include:

- The budget on OMB project forms,
- The legislation approving the project funding,
- The funding source for each project,
- The expected cost of each project via a budget,
- The expected start and completion date for each project,
- The Project Manager and Department/Division,

Applicants with qualifications greater than those required at the entry level may be hired at a rate not to exceed the midpoint (Step F) of the respective pay grade assigned in accordance with the applicable personnel policies, with the exception of the Judicial Branch who may hire at a higher rate exceeding Step F as budgeted for the fiscal year. These amounts are to be budgeted in object code 2200. If there are insufficient funds to cover the above entry level salary, a budget revision should be processed for the additional amount.
- **4. General Wage Adjustment.** Pursuant to the Navajo Nation Personnel Policies Manual (NNPPM), Section (VII) (G) (5), each year DPM recommends a General Wage Adjustment (GWA).

The general wage adjustment for positions will be paid out of the Personnel Savings (Lapse Fund) Account, if available, and with approval of the Navajo Nation Council, with the exception of those programs receiving a prior year carryover amount from their unexpended personnel savings. Contractor's equipment	0.86	\$1,000	\$1,500

Example: Program reports \$50,000 in total insurable values (TIV) for its property contents and contractor's equipment. Formula: $$50,000 \text{ (TIV)} \div $1,000 = $50 \text{ x } $0.86 = 43.00 . Program should then budget \$43.00 for property premium based on the TIV report.

4. Exposure Summary Information. The Navajo Nation Risk Management program has an "Exposure Summary Packet" for policy year 2018 which will assist each division, department, program or Chapter in determining property premium rates to be budgeted. - **B. Procedures.** The following requirements apply to supplemental budget proposals:
 - 1. Navajo Nation programs and entities seeking supplemental funding shall use the Supplemental Funding Request Form (Appendix K) and budget forms 1 through 5 or if a project budget, project budget forms, and follow the instructions provided in the current BIM. - d. Funding requests must be prorated to fund only the remaining portion of the fiscal year, i.e., funds appropriated in January must be budgeted for spending from February to end of fiscal year (eight months) or funds appropriated in April must be budgeted for spending from May to the end of the fiscal year (five months).
- e. A program performance assessment of on-going programs shall be made, including a review of the performance data, expenditures, and other pertinent program information.
- 3. All supplemental funding requests shall be processed through OMB for approval by the appropriate oversight committee, Budget and Finance Committee and Navajo Nation Council. OMB will review supplemental funding proposals for priority consideration of the budget package, including any written analysis and recommendations.
- **C. Branch Chiefs Review and Recommendations.** The Branch Chiefs shall review and provide recommendations on any supplemental funding proposal before the proposals are submitted to the oversight committee, including the Budget and Finance Committee for review and action. The review shall include a prioritized list of the supplemental funding packages and whether such supplemental funding proposals should be considered for funding with consideration given to the overall Navajo Nation fund balance and other supplemental funding proposals.
- **D. Navajo Nation Council Standing Committee Coordination.** A Navajo Nation Council delegate may introduce legislation to sponsor the appropriate Branch Chief's supplemental funding request recommendation. The appropriate oversight committee will adopt recommendations, with justification, and forward the supplemental funding package for further legislative action.

- E. Supplemental Funding Request for Capital Projects. Capital budget development requires a review and recommendation by the appropriate oversight committee and Capital Projects Management Department (12 NNC § 820 (I) and 860). All requests for supplemental appropriations for capital projects shall be submitted to the Capital Projects Management Department within the Division of Community Development, for proper review pursuant to established Capital Plan and budget policies and procedures. Only those proposals recommended by the legislative oversight committee(s) will be considered for supplemental funding.
- **F. Budget and Finance Committee Action.** Budget and Finance Committee members will develop and sponsor legislation recommending a consolidated package of supplemental funding proposals, if any, to the Navajo Nation Council, pursuant to 2 NNC § 300 (C) and 12 NNC § 820.
- G. Navajo Nation Council. The Navajo Nation Council may approve supplemental appropriations during the fiscal year, if and when additional sources of revenues above and beyond the initial or current revenue projections are realized and which are also in excess of the reserve amount set in 12 NNC § 820 (J) of the Appropriations Act. Final action on supplemental funding legislation will be taken by the Navajo Nation Council during one of its sessions on the supplemental funding proposals which meet the requirements of these policies and procedures.

- Total Grant Awarded is \$150,000.
- Exclusions consist of \$30,000 for vehicle purchase; \$15,000 for computer purchase for a total of \$45,000.

- IDC Rate is 17.18%.
- Budget or recovery of IDC is \$15,394.27 = \$105,000 89,605.73 (\$105,000/1.1718).

- Total Funds Awarded is \$150,000.
- Match required 20% of expenditures. \$50,000 of Equipment (Federal Share \$40,000/Match \$10,000).
- Exclusions consists of \$40,000 (\$-25,000) subcontracts.
- IDC base is \$135,000 (\$150,000-\$15,000).
- IDC Rate is 17.18%
- Budget on recovery of IDC is \$19,793 = \$135,000 \$115,207 (\$135,000/1.1718)

CHAPTER BUDGETING POLICIES AND PROCEDURES

I. Purpose

The Chapter Budgeting Policies and Procedures are established to ensure all funds appropriated by the Navajo Nation are managed and expended in accordance with the Chapter approved budget, and are disbursed, reported and monitored for compliance in accordance with Navajo Nation laws, including NNC Title 26 Local Governance Act (LGA), Title 24 the Tax Code, the Appropriations Act, and the respective Chapter's Five Management System (FMS) Policies and Procedures.

Because of the unique and significant roles that Chapters have in the Navajo Nation, funds are allocated to the Division of Community Development (DCD) which distributes the allocations to each Chapter from the Navajo Nation funds. It is the DCD which is responsible for first providing adequate oversight and administration of the funds for each chapter. Budgets prepared at the Chapter level are proposed by line item expenditures in the Navajo Nation budget format. It is critical for the DCD to verify that all Navajo Nations laws and policies are followed in the development of Chapter budgets. Therefore, these policies are designed to provide guidance to Chapters and DCD in the development of the individual Chapter budgets.

The Chapter budgeting policies and procedures provide guidance for:

- 1. The development, implementation, and administration of the Chapter budget as mandated by NNC Title 26 §2003.
- 2. The electronic processing of Chapter budgets, request for direct payment (RDP) of Chapter allocations using the online web-based system and electronic funds transfer for direct deposits of Chapter allocations into the respective Chapter's bank account(s) by the DCD.

The monitoring of budgeted expenditures versus actual expenditures and quarterly reporting, by the Administrative Service Centers (ASC), under the DCD, to the Chapter Officials, DCD, and Office of Management and Budget (OMB), including reporting of non-compliance, misuse of Chapter funds, and corrective action plans.
- 4. Performance based planning and strategic planning; reporting and monitoring of monthly and quarterly performance assessments for the 110 chapters should be conducted by DCD's ASC.

The implementation of Chapter appropriations should be based on the terms and conditions of the Conditions of Appropriations (COA) or other directives by the Navajo Nation Council and any rules and regulations, which covers both allowable and disallowable expenditures for all funds received by the Chapters.
